NOTICE TO THE PUBLIC

Available for Public Review & Comment

Guam's Consolidated Annual Performance and Evaluation Report (CAPER) For the Program Year 2021

The Guam Housing and Urban Renewal Authority (GHURA) announces the availability of Guam's Program Year 2021 Consolidated Annual Performance and Evaluation Report (CAPER) for public review and comment. In accordance with 24 C.F.R. § 91.520 this performance report includes the performance activities described in the Program Year 2021 (PY2021) Annual Action Plan (AAP) or other concurrent activities with Guam's 2020-2024 Consolidated Plan.

The PY2021 CAPER describes the resources made available, the investment of available resources, the geographic distribution and location of investments, the families and persons assisted, the actions taken to affirmatively further fair housing, and other actions indicated in the AAP during this reporting period. For the period covering October 01, 2021 to September 30, 2022 this report highlights efforts and program activities funded from the U.S. Department of Housing and Urban Development, Office of Community Planning and Development – Community Development Block Grant (CDBG), CDBG-CV, HOME Investment Partnerships Grant (HOME), the Emergency Solutions Grant (ESG), ESG-CV, and the Continuum of Care Program Grant.

The CAPER will be available electronically on GHURA's website at www.ghura.org.

GHURA is inviting the public to review and comment on the PY2021 CAPER until December 20, 2022. A public hearing will be held on Monday, December 5, 2022 at 10am at GHURA's Board of Commissioners Conference Room at the GHURA office at 117 Bien Venida Ave, Sinajana, Guam. Individuals or organizations wishing to comment on the CAPER are encouraged to do so by attending the public briefing or submitting written comments to GHURA drop box with notation of ATTN: Alicia P. Aguon or by email to apaguon@ghura.org or via facsimile at 671-300-7565. All comments must be received no later than Tuesday, December 20, 2022.

GHURA will make necessary arrangements for persons with disabilities or special accommodations. If you should require any special accommodations, please contact the Section 504 Coordinator at 475-1322 or 472-3701 (TTY/TDD) via email at katherine@ghura.org.

/s/ Fernando Esteves
Executive Director, Acting

Consolidated Annual Performance and Evaluation Report

GUAM CAPER PY2021

Program Year 2021 (Oct 01, 2021 – Sept 30, 2021)

for public comment as of November 20, 2022

2022

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

For this reporting period Guam's priority had shifted leading up the start of the program year (October 2020). Seven months into the Global Pandemic, the community focused all/prioritized efforts to address, respond to and prepare for Coronavirus on Guam. In this reporting for the first time Guam was not able to meet the ratio for expenditures on its entitlement funds. Guam developed a CDBG Workout Plan to assist in addressing its timeliness and identify factors that contribute to its status of the expenditures for the previous year funding. Some of these factors that contributed to this status include prior H2B construction labor issues, government permitting process timeliness, and Coronavirus. In this same period, Guam received CARES Act funds to prepare for, respond to Coronavirus in addition to regular entitlement CDBG/HOME/ESG funds.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG	HOME	ESG
White	15	0	12
Black or African American	5	0	15
Asian	563	0	15
American Indian or American Native	2	0	1
Native Hawaiian or Other Pacific Islander	1,775	0	726
Total	2,360	0	769
Hispanic	0	0	0
Not Hispanic	0	0	7

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Above in Table 2 describes families assisted from programs funded by Guam's entitlement funds and/or CARES Act funds during the program year 2021 (October 1, 2021 – September 30, 2022), by the racial and ethnic status. The CARES Act funds expended were used to prepare and respond to the community needs for CoronaVirus. Reported in the previous year The Salvation Army received \$153,000.00; those funds continued to be expended during this reporting period to assist 2296 individuals during this time period. Of the recipients, (15) White, (5) Black African American, (562) Asian, (2) American Indian/Alaska Native, (1712) Native Hawaiian/ Other Pacific Islander. Guam Housing Corporation received \$714,000.00; during the period the sub recipient worked through the programmatic aspect for the Mortgage Relief Program, this activity was completed and closed during the CAPER PY2020 however the balance of \$648,469.91 of CV funds have been identified to be reprogrammed to on-going CV activities (Liheng Sinafo Temp. Emergency Shelter). Also reported in the previous CAPER PY2021 Manelu received \$64,084.00 for its Employment Empowerment Initiative (EEI) Program. During this year this activity continued to be active and progressing toward project goals. The project has provided workforce readiness and employment assistance to 64 individuals for this period. The 64 clients have all completed the Workforce Development workshops. 24 participants were assisted with overcoming the barrier of transportation, by receiving the incentive of driving school. Five (5) participants elected for the incentive to pay for their health certificates to start working within the food industry. 22 clients were assisted with searching for jobs, creating a resume, and applying for employment. 15 out of the 22 were successfully employed, and 5 reached the interview stage and are still awaiting a response from employers.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	3,153,352	2,917,157
HOME	public - federal	1,063,975	237,434
ESG	public - federal	258,941	2,243,366
HTF	public - federal	0	0

Table 3 - Resources Made Available

Narrative

Table 3 reflect a total of \$5397956.14 in expenditures for the reporting period for PY 2021 (October 1, 2021 – September 30, 2022). The total expended CDBG funds reported was 2917156.84, of that 2752379.96 was entitlement funds and 164776.88 was CDBG-CV funds. The total 237433.66 HOME funds expended resulted from program expenditures that supported HOME acquisition and rehabilitation projects and the HOME program administration, were all entitlement funds. The total expended ESG funds reported was 2243365.64, of that 2210496.15 was ESG-CV program activities and 32869.49 entitlement funds. For this PY2021 reporting period Guam did not receive or expend Housing Trust Fund program funds.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 4 – Identify the geographic distribution and location of investments

Narrative

Guam identifies specific projects/activities based on community need in line with its goals outlined in the Consolidated Plan and its respective Annual Action Plan for the program year.

During this program year expenditures reflected a priority in response to support community need in the prevention, preparation for and response to Coronavirus. Programs funded such as the Food Pantry and Family Services Center located in the village of Barrigada. Project Akudi is based in Chalan Pago however the program is administered throughout the island at various sites. The Senior Centers project will target six locations. Two locations in Dededo located in the North, Hagat located in the south, Magilao located in the central area of the island, Tamuning considered north/central village, Yona located in the south/central on the eastern side of the island.

The Authority continued planning efforts in design for the MTM Basketball Court Rehabilitation, once

project is completed it will be accessible to the central villages of Mong-Mong-Toto-Maite (MTM). MTM is home to residents living in GHURA's public housing units located in Mongmong and Toto and other low-income housing units such as Villa Del Mar which is funded through the low-income housing tax credit program. The court is located within walking distance of a school and a church.

Other planning, design and development efforts were done during this reporting period for the projects Sinajana Fire Station and the Eastern Sub-Station. Each of these projects aim to address different areas of the island, the Eastern Sub Station will address public safety and the response time to Eastern and Southern villages of Asan, Piti, Agat, Umatac, Merizo, Inarajan, and Talofofo. The substation will be located within the area of other community facilities/ parks such as the Talofofo walking path, Sport field, Talofofo Gym and Talofofo Elementary School.

The construction of the Central Community Arts Hall neared completion at the end of this reporting period. This projects is located in the central village of Sinajana and is adjacent to the GHURA Main Office.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

HUD funds continue to leverage local resources to develop projects quite often by identifying available public land within Guam's inventory. Land continues to be particularly useful and remains a scarce resource. This enables HUD funds to be focused on the construction of facilities at considerable savings to project costs.

During this reporting period, the Government of Guam, the Authority, GWA and various Government agencies worked to secure land for a public facilities project which will construct a new facility for the Guam Police Department, an Eastern Substation. This is a public facility proposed in the first year of this ConPlan period continues to progress forward with its design and development. During this reporting period the Authority and the Administration addressed the Sinajana Fire Station project anticipates leverage of local funds for the construction of this CDBG PFI project, as CDBG funds were used in previous years to acquire the site (land). CDBG PS funded activities leverage local funds raised through community effort with the program funded expenditures to successfully operate and meet community needs. The HOME and ESG match requirements do not apply to Guam.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	0
2. Match contributed during current Federal fiscal year	0
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	0
4. Match liability for current Federal fiscal year	0
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	0

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	105	0
Number of Non-Homeless households to be provided affordable housing units	34	0
Number of Special-Needs households to be provided affordable housing units	204	0
Total	343	0

Table 11 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	54	0
Number of households supported through The Production of New Units	3	0
Number of households supported through Rehab of Existing Units	1	0
Number of households supported through Acquisition of Existing Units	1	0
Total	59	0

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

Guam's goals for the second year of CONPLAN 2020-2024 included sustaining affordable housing stock by constructing homes to be sold to eligible low and moderate income individuals and families and to acquire and rehab existing stock also to be sold to income eligible buyers. During this program year construction has begun for (2) new affordable housing units and remains ongoing through the end of this reporting period. In the pursuit of affordable rental housing, Guam has largely supported the development

of low income tax credit funded projects. Through this program year Guam worked to acquire affordable rental through the use of its CDBG program year funds. During this reporting period the efforts on the site selection were unsuccessful though most of the program year was spent on the environmental and other administrative duties to acquire it.

Guam still maintains struggles in the construction industry. Competition to secure contractors between with local and federal jobs remain at the forefront of the struggles in addition to the lingering repercussions of reduced access to a non H2B workforce, increased materials costs and or the reduced availability of materials.

Along with the rest of the nation Guam's efforts remained in line with the last program year, prioritizing its efforts to prepare to respond to and prevent Coronavirus, expending CARES Act funds through this reporting period. These efforts would include funding support for the immediate Homeless Shelter in addition to maintaining Guam's proposed activities to support target demographic populations as a result of CoronaVirus.

Discuss how these outcomes will impact future annual action plans.

Guam will continues to pursue its plans to address these needs to produce additional inventory of affordable housing (to be marketed at prices not attainable by a low or moderate income buyer or renter) along with actions to address public safety. The same issues of increased costs of construction and limited or lack of materials are still the same issues faced on every site prior to construction, during and through the end. For a second year the outcomes resulting from these issues the island faces have placed greater pressure on proper planning and execution on the Authority.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	0	0
Low-income	0	0
Moderate-income	0	0
Total	0	0

Table 13 – Number of Households Served

Narrative Information

Guam continued to fund the Family Service Center using CDBG funds. For this program year, Guam began construction on (2) new affordable housing units for households below 60% area median through the HOME Program. Guam continues to pursue its plans to increase the inventory of affordable rental units.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The local CoC conducts street outreach which primarily focused to one goal: that of supporting persons experiencing homelessness in achieving some form of permanent, sustainable housing.

Street outreach is conducted by project staff and volunteers at least once a week. The staff maintains an outreach log/journal to compile information about individuals/families who engaged and the information is entered into HMIS database. An assessment is done using VI SPDAT to determine the person/family needs. When the homeless person/family give authorization to release their information, staff then shares relevant client information for referrals. Staff use referral forms, intake forms, and Individualized Service Plans to identify gaps in services and make appropriate referrals. All interactions involving a homeless individual or family are entered in Coordinated Entry System (CES). Through CES, service providers will respond to facilitate housing placement options and access to support services through case management. Direct referrals may be initiated and followed up with providers of specific target populations. Case management is provided to program participants by review of case file and ensure documentation is complete or if additional documents are needed. Staff conducts follow up with clients to ensure any additional needs or services are addressed. Outreach workers usually conduct street outreach in the top villages with the highest number of unsheltered homeless.

Addressing the emergency shelter and transitional housing needs of homeless persons

The local CoC conducts street outreach which primarily focused to one goal: that of supporting persons experiencing homelessness in achieving some form of permanent, sustainable housing.

Street outreach is conducted by project staff and volunteers at least once a week. The staff maintains an outreach log/journal to compile information about individuals/families who engaged and the information is entered into HMIS database. An assessment is done using VI SPDAT to determine the person/family needs. When the homeless person/family give authorization to release their information, staff then shares relevant client information for referrals. Staff use referral forms, intake forms, and Individualized Service Plans to identify gaps in services and make appropriate referrals. All interactions involving a homeless individual or family are entered in Coordinated Entry System (CES). Through CES, service providers will respond to facilitate housing placement options and access to support services through case management. Direct referrals may be initiated and followed up with providers of specific target populations. Case management is provided to program participants by review of case file and ensure documentation is complete or if additional documents are needed. Staff conducts follow up with clients to ensure any additional needs or services are addressed. Outreach workers usually conduct

street outreach in the top villages with the highest number of unsheltered homeless.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

To help low income and extremely low-income persons to become homeless, Guam has Homeless Prevention (HP) program to individuals and families who are at risk of becoming homeless by providing financial assistance to for rental and utilities arrears. Support services and case management that are provided to HP are customized for the families. This could include counseling, jobs assistance and household budgeting. Case workers develop an individualized service plan that will best assist the family achieve self-sufficiency. Case workers may include other service providers in the case management of the client, including school social workers, to ensure needs to school-age children in the household are enrolled and their needs are addressed. The ones who are employed are supported to retain employment by providing other support services. If housing is subsidized and stable, the individual is connected to mainstream benefits to supplement their income if eligible. Some service providers assist clients to attend job fairs to obtain jobs, in addition to direct job search. The Department of Labor American Job Center has also redesigned skill training opportunities through apprenticeships that would solidify an individual's skills and increase employment marketability. The community college has also implemented a 'boot camp' for the trades and is focused on those unemployed with no skills. The boot camp provides an introduction to various trades with the goal of identifying a specific trade to pursue further through training and apprenticeship.

The Employment Empowerment provide assistance and Educating, inspiring & empowering Guam's youth and families to change their lives for the better.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Guam commits to the Housing First approach with emphasis on the following: 1) housing placement rates, 2) prioritizing unsheltered clients for housing, 3) prioritizing persons with little to no income & 4) housing retention. The CoC has 86% of funded projects that are using the Housing First Approach that prioritize rapid placement and stabilization in permanent housing and do not require service participation or preconditions of program participants. This process expedites the transition to

permanent housing and independent living, including shortening the period of time that persons experiencing homelessness to access permanent housing programs through public housing, Housing Choice Voucher and preventing persons who were previously homeless from becoming homeless again. The provision of case management help to improve the homeless situation by assisting them to mainstream services. All homeless providers and community partner who incorporates case management services within their respective organization includes a process for connecting unemployed or low-income clients to mainstream benefits such as TANF, SNAP, Medicaid and state-funded Medically Indigent Program a state funded health insurance, and coordinate with the Social Security Administration for eligibility due to age or disability. These resources serve to provide financial assistance for basic needs and medical needs as other services are navigated. Caseworkers generally has primary responsibility for initiating this connection, including assisting to obtain documents necessary to establish eligibility and completing the application form. For individuals who may be ineligible for federally funded mainstream benefits, the Social Worker/Caseworker assist to connect the individual to state-funded or community-based services. Community outreaches which often includes an array of service providers has been effective in reconnecting the homeless to services or in new connections for future follow-up by the respective partners.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

During the reporting period, GHURA's Public Housing Management team continued to work closely with Public Housing residents to link them with local programs to assist them with paying rent and utilities. GHURA staff stayed connected with Guam's Department of Administration who oversees the Emergency Rental Assistance Program (ERAP) to ensure Public Housing families avail of the program funding. For many residents, the availability of these funds prevented them from facing evictions and homelessness. As the ERAP program funds expire and closes, the PH Management is taking an active role in meeting with residents to discuss the challenges they may have in keeping up to date with their rents. For those that have completed their term with DOA, the AMPs staff work with residents to reevaluate their financial situation. Most of the residents agree to move their outstanding balances into promissory notes. In efforts to maintain the needs of public housing The Resident Advisory Board (RAD) consisting of residents within the four (4) Public Housing sites meet annual to review the PHA Plan and provide input on capital improvement initiatives at their site. These efforts promote engagement and opportunities for families to work closely with their site-based office. There is currently no homeownership program available however, families in the public housing program participate in education and awareness activities that advocate and promote decent, clean and sanitary units. As discussed earlier, home inspections and follow up services include educating families on reporting deficiencies in their unit; tips on how to clean their appliances and how poor housekeeping is linked with infestations; all are risks for failed inspections. Other efforts to address the needs of the public housing community AMP 3 (Agat, Merizo, Umatac) opened a waiting list application period on April 1st 2022 and remained open through September 30th 2022. AMP 4 (Dededo, Toto) has determined that it will reintroduce the Resident Newsletter. This newsletter has been resourceful for residents in the past as it provided them with feedback on GHURA programs and tidbits on housekeeping. This also provided them information about the REAC inspection and the AMP's performance.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

GHURA's Public Housing AMP 2 works closely with its residents to take pride in the development and to continue to work hard at making the community a clean and safe environment to live in. On a large scale, residents volunteer to participate on GHURA's Resident Advisory Board to advocate for their community interests and capital improvement initiatives. On a smaller scale, residents volunteer for small painting projects, or to simply lead and take charge of non-profit organizational programs administered by community partners at the sites. Although there is no existing platform to push resident participation in homeownership currently, we are certainly open to discussions on the topic. This will likely involve coordination with USDA and other banking institutions that can provide information on homeownership affordability and the requirements residents will have to undertake to qualify for such financing. During the year, the Staff have been involved with several activities, such as DOE's Parent-Teacher Conference and the CEDAR's Village Play Time. Mane'lu has also introduced outreach programs

to both children and adults.

Actions taken to provide assistance to troubled PHAs

N/A

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

Guam continues to work in concert with the CoC and others to assist those individuals experiencing homelessness to obtain Guam identification cards for those who are certified homeless. During this reporting period, Guam set a course for action to Acquire more affordable rental properties for low/moderate income these action resulted unsuccessful at the end of this reporting period. Efforts to support housing include the site, design and planning for Public Facility and Transitional Housing in the village of Dededo.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

Guam focused on programs that address the preparation, reaction, and response to Coronavirus. In addition to these emergency programs, the CoC continued to support programs that serve victims of domestic violence, and the Housing First program, which prioritizes chronically homeless individuals with disabilities.

CDBG's Public Services programs assisted the following underserved populations: The Lighthouse Recovery Center provided treatment to men in recovery from substance abuse; the Family Services Center provided homeless prevention and rapid rehousing, emergency and transitional housing; the Homeless Management Information System captured important data of persons served through various homeless programs; Manelu provided work readiness and family enrichment programs; and GALA provided youth empowerment programs. Although plans in place continuously supported GUAM's proposed projects, efforts continued toward goals identified in GUAM's Annual Action Plan

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

GHURA continues to exercise LBP procedures in the same manner has previously reported in the last CAPER period.

During the planning meetings for prospective sites, regulations are reviewed to ensure safety and compliance above all project efforts.

Planning and procedures are in place to determine if a site has presence of LBP. All procurement and proper safety planning regarding the work involving the testing, abatement or encapsulation is contracted by proper authorities and a hazard waste contractor. Staff is reminded and educated that Lead based paint (LBP) shall be removed and disposed of in accordance to 40 CFR Part 745.227. As

such, disturbance/demolition/disposal of these work items. All construction debris must be performed in accordance with the OSHA lead standard for construction (29 CFR 1926.62) and US EPA hazardous waste regulations (40 CFR Parts 242-282). The OSHA lead standard includes requirements for worker training, medical surveillance, air monitoring, personal protective equipment, and hygiene facilities.

In addition, any waste generated from the disturbance of these surfaces may be regulated by the EPA as hazardous waste. It is recommended that a representative sample of the waste be analyzed for proper hazardous (or non hazardous) characterization. If the waste stream is deemed hazardous, it must be disposed of at an EPA approved site. If the waste stream is found nonhazardous, it can be disposed of as construction debris. The contractor provides certification of LBP material disposal to GHURA. Closeout documents for LBP certification requirements are required. The contractor shall hire an independent third party inspector to determine the presence (or absence) LBP and ensure the work is completed and free from LBP contamination. The independent third-party inspector shall be EPA certified and licensed to conduct such activities pursuant of 40 CFR Part 745.227.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The number of persons and families living in poverty on Guam remains a concern to the government and the community. Resources and actions taken by Guam to address poverty included committing funds to local organizations that provided direct and indirect assistance to low and extremely low income families and special needs populations (including victims of domestic violence, adults with disabilities, and the homeless.) Services include housing related assistance, case management and supportive services, job training and education, and other services. Guam also shares guidance and strategic direction to working groups and collaborative efforts who address veteran homelessness and homeless families. Guam works in conjunction with community partners to address the goals of poverty reduction as stated in the current ConPlan.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Guam's efforts to develop institutional structure with respect to affordable housing and homeless issues include membership in planning councils and various working groups. Specifically, Guam assists veteran groups to end homelessness, homeless individuals with disabilities, and survivors of domestic violence. Guam also participates in strategic planning of the CoC and assists with their annual gap analysis. Guam's CPD Division provides technical assistance training to CDBG, ESG and HOME subrecipients and prospective subrecipients, as well as to prospective applicants for LIHTC and the Section 108 programs. Internally, the agency dedicates resources to enhancing the skills of its staff through ongoing professional development and training.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Guam continues to collaborate regularly with public and private entities to better address housing

and community development initiatives. Organizations and institutions involved include the following: Catholic Social Services, Core Tech., Dept. of Public Health and Social Services, Guam Alternative Lifestyle Association, Guam Behavioral Health and Wellness Center, Dept. of Revenue and Taxation, Guam Legal Services Corp. –

Disability Law Center, Guam Dept. of Parks and Recreation, Guam Police Department, Mayor's Council of Guam, Guam Mami, Micronesia Community Development Corp. (MCDC), Manelu, Micronesian Resource Center, Sanctuary Guam Inc., The Salvation Army, University of Guam, US Dept of Veterans Affairs, Victim Advocates Reaching Out and Westcare Pacific Island. CoC has other programs where eligibility isn't based on being a victim of domestic violence or sexual assault; for instance, Guma Manhoben that serves youth or Y Jahame that serves individuals/families with priority given to those with the longest histories of homelessness. In addition to these partnerships with the community other programs that addressed the community preparation and response to COVID19 were supported through this reporting period.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The Coordinator fields individual inquiries from the public, GHURA staff and others seeking guidance or information on the nature of Fair Housing coverage, the protected classes, assistance to file complaints, and options on how to file complaints. During this reporting period no formal complaints were filed with the Fair Housing Coordinator/ Guam. However, the Coordinator fielded several informal general inquiries about what fair housing was and the particular protected classes. Inquiries were in an effort to better understand the particulars of their personal circumstances. Guam/GHURA is aware of two complaints filed directly online with HUD during the PY21 reporting period.

Trainings were planned for the third quarter of the reporting period, however, unexpected circumstances prevented Guam/GHURA from fulfilling them. Training is planned for the coming program year. Future training is largely expected to be conducted online, in keeping with reduced contact protocols established and improved since the onset of the Covid pandemic.

Guam continues to address impediments to fair housing, lack of information and understanding of fair housing regulations. Guam's Fair Housing Coordinator schedules and arranges Fair Housing basic training for GHURA staff, organizations, and landlords. Organizations include service organizations providing housing and housing assistance (search and placement) to Guam's homeless. Property managers of developer-assisted housing through the Low Income Housing Tax Credit Program and island real estate professionals are also routine participants in Fair Housing training.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Over the last two reporting periods, Guam has developed and monitored all CDBG current/on-going AAP activities through its timeliness workout plan. This workout plan is modeled from HUD's Timeliness guidance which focuses on providing a forecast on monthly expenditures for any specified activity in addition to a milestone schedule that monitors the monthly progress of the activity. This workout reporting has changed from monthly reporting during last reporting period to a weekly progress meeting headed by the Authority's Executive management team, RP&E and A&E Divisions.

Other monitoring practices exercised by the planners within the RP&E and CD Divisions are direct expenditure monitoring. Each approved activity/project uses the budget which is used through the duration of the activity to monitor approved expenditures with each request. Technical assistance is provided to sub-recipients to understand proper budget spreadsheets which are tracked by the General Accounting Manager of CPD.

During this program year, the RP&E division revisited its administrative process to improve annual compliance monitoring for all PFI activities ongoing and completed. This process was still being finalized at the end of this reporting period.

During this program year, GHURA conducted on-site monitoring of the following CoC and ESG-CV projects:

Program: CoC

Project: DV Bonus/Gai Animas

Subrecipient: Catholic Social Service

Date: April 25, 2022

Program: ESG-CV

Project: Liheng Sinafo (Temporary Emergency Shelter)

Subrecipient: Catholic Social Service

Date: May 17, 2022

Program: ESG-CV

Project: Na Fan Safo

Subrecipient: Catholic Social Service

Date: July 7 and 8, 2022

During the monitoring review of the above projects, particular attention was paid to reviewing compliance with Homeless and At-Risk Determination/Recordkeeping Requirements, Rapid Re-housing, Transitional Housing, and Emergency Shelter. Other areas, such as financial management systems, procurement practices, match requirement, and equipment were not reviewed.

GHURA found insufficient documentation for items such as income verification, participant eligibility, occupancy and lease agreements, housing quality standards, rent reasonableness, fair market rent, and lead-based paint, particularly if there are household members ages 6 and below. Other concerns included program participant identification, individual service plans, and HMIS consent forms.

With regards to the Temporary Emergency Shelter (TES) GHURA inquired if the shelter is accessible in accordance with Section 504 of the Rehabilitation Act (29 U.S.C. 794) and implementing regulations at 24 CFR part 8; and is open at a minimum 8:00 am to 6:00 pm daily (7 days a week).

GHURA staff held an exit meeting with the subrecipient's staff who oversee the projects listed above.

During the exit meeting, GHURA advised the subrecipient of its findings and corrective actions associated with the findings.

The HOME program on-site inspections of affordable rental housing can be read in section CR-50 if this reporting.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Guam adheres to its Citizen Participation Plan which outlines the process for citizens to participate and comment on reports. During the reporting year, Guam had no substantial amendments to its Citizen Participation Plan. Public Notice for this CAPER is scheduled for November 20, 2022 and December 4, 2022. This section will be revised to include comments following the comment period after December 20, 2022. (11.202022)

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

During the reporting year, Guam continued to experience the same setbacks and delays reported in its PY2020 CAPER. Many of the public services activities centered around the planning, preparation and response to Coronavirus. The public facilities projects still the repercussions of the shutdown due to COVID, whereas materials far exceeded the initial contract prices or were just not available. These issues capped with the skilled labor shortage made for a very challenging period for both the Authority and its need to address the community need and the contractors tasks to execute projects.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

Isla Apartments: 14 Unit Apartment Complex. Renovated with HOME funds.

Owned and operated by Catholic Social Service

Inspection Date: October 25, 2021

UPCS inspection resulted in Exigent Health and Safety (EHS) in four of the units. EHS deficiencies included but not limited to blocked egress and inoperable smoke detectors. Notices were issued and corrections were made within a 24 hour period. Observed Deficiencies (OD) were identified in 10 units. OD identified included but not limited to outlet covers missing or damages, pick up plugs missing, leaky shower head and GFCI inoperable. Deficiencies were documented and indicated on the report provided to the owner of the complex advising a 90 day correction period. Deficiencies were corrected and verified within the period. Other deficiencies were reported by the landlord and is currently being assessed.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

No affirmative marketing efforts were made for this period. GHURA's HOME program continues to utilize a waitlist generated from previous affirmative marketing campaigns via Facebook and flyers distributed to the Mayor's Council of Guam, church groups and nonprofit organizations. Social media proved to be the most effective medium reaching the most eligible parties and diverse groups who had an interest in the programs.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

For this reporting period program income drawn and used from 10.01.2021 to 09.30.2022 totals \$23,420.55. This can be reported as total PI used is \$13,979.60 and \$9,440.95 was for admin (HOME PA).

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES

**ONLY: Including the coordination of LIHTC with the development of affordable housing).
91.320(j)**

GHURA's HOME Program and LIHTC Program continues to foster and maintain affordable housing by providing affordable units for rent and/or purchase.

HOME Program:

For this period the Renewal Affordable HOMEs Program closes on one homebuyer and is in the process of construction an additional 2 units under the program. Currently screening 5 prospective buyers. In addition HOME Program assisted 2 families under the Affordable Rental Program in addition to renewing (9) tenants. The HOME Program continues to monitor and assist (9) families affected by COVID through housing counseling and a local Housing Assistance Fund mortgage program. And in the same period, GHURA's HOME Program contracted 1 minority contractor for the new construction of two single family units for this period.

LIHTC Program:

At the beginning of 2021, the LIHTC Qualified Allocation Plan (QAP) and Application process was initiated and \$6.6M in tax credits were made available to applicants that could provide affordable units based on the criteria set forth in the QAP. By July 2021, two applications were submitted—Summer Breeze I and Summer Vista. After careful deliberations, Summer Breeze I was awarded \$3.6M for the development of 64 affordable rental units comprising of (6) 1BR/1BA units; (18) 2BR/1BA units; (30) 3BR/2BA units; and (10) 4BR/2BA units. More importantly, once the project is complete in 2023, this will mark the 2nd LIHTC project to generate affordable rental units for individuals and families in the central region of Guam.

WORLD / NATION

Early flu adding to woes for US hospitals

Associated Press

As Americans head into the holiday season, a rapidly intensifying flu season is straining hospitals already overburdened with patients sick from other respiratory infections.

More than half the states have high or very high levels of flu, unusually high for this early in the season, the government reported Friday.

Those 27 states are mostly in the South and Southwest but include a growing number in the Northeast, Midwest and West.

This is happening when children's hospitals already are dealing with a surge of illnesses from RSV, or respiratory syncytial virus, a common cause of cold-like symptoms that can be serious for infants and the elderly.

And COVID-19 is still contributing to more than 3,000 hospital admissions each day, according to the Centers for Disease Control and Prevention.

The winter flu season usually doesn't get going until December or January. Hospitalization rates from flu haven't been this high this early since the 2009 swine flu pandemic, CDC officials say. The highest rates are among those 65 and older and children under 5, the agency said.

"It's so important for people at higher risk to get vaccinated," the CDC's Lynnette Brammer said in a statement Friday.

But flu vaccinations are down from other years, particularly among adults, possibly because the past two seasons have been mild. Flu shots are recommended for nearly all Americans who are at least 6 months old or older.

Adults can get RSV too and that infection can be especially dangerous for older adults who are frail

AP PHOTO
A patient is given a flu vaccine at the L.A. Care and Blue Shield of California Promise Health Plan's Community Resource Center on Oct. 28, 2022, in Lynwood, California.

or have chronic illnesses, doctors say. There is not yet a vaccine against RSV, although some are in development.

One infectious disease specialist urged Americans to take precautions before gathering for Thanksgiving, including avoiding public crowds, getting COVID-19 tests before they meet, and

wearing masks indoors — particularly if you are old or frail, or will be around someone who is.

"Nobody wants to bring a virus to the table," said Dr. William Schaffner, of Vanderbilt University.

The American Academy of Pediatrics and Children's Hospital Association this week urged the Biden administration to declare an emergency and mount a national response to "the alarming surge of pediatric respiratory illnesses."

An emergency declaration would allow waivers of Medicaid, Medicare or Children's Health Insurance Program requirements so that doctors and hospitals could share resources and access emergency funding, the groups said in a letter.

NOTICE TO THE PUBLIC

Available for Public Review & Comment

Guam's Consolidated Annual Performance and Evaluation Report (CAPER) For the Program Year 2021

The Guam Housing and Urban Renewal Authority (GHURA) announces the availability of Guam's Program Year 2021 Consolidated Annual Performance and Evaluation Report (CAPER) for public review and comment. In accordance with 24 G.F.R. § 24.520 this public notice report includes the performance activities described in the Program Year 2021 FY2021 Annual Action Plan (AAP) or other concerned activities with Guam's 2020-2024 Consolidated Plan.

The FY2021 CAPER describes the resources made available, the investment of available resources, the geographic distribution and location of investments, the beneficiaries and persons assisted, the actions taken to affirmatively further fair housing, and other actions included in the AAP during this reporting period. For the period covering October 01, 2021 to September 30, 2022 this report highlights efforts and program activities funded from the U.S. Department of Housing and Urban Development, Office of Community Planning and Development - Community Development Block Grant (CDBG), CDBG-CV, HOME Investment Partnerships Grant (HOME), the Emergency Solutions Grant (ESG), LSG-CV, and the Continuum of Care Program Grant.

The CAPER will be available electronically on GHURA's website at www.ghura.org. GHURA is inviting the public to review and comment on the FY2021 CAPER until December 20, 2022. A public hearing will be held on Monday, December 5, 2022 at 10am at GHURA's Board of Commissioners Conference Room at the GHURA office at 117 Brierley Avenue, San Juan, Guam. Individuals or organizations wishing to comment on the CAPER are encouraged to do so by attending the public hearing or submitting written comments to GHURA drop box with notation of ATTN: Alifan P. Aguirre or by email to aguirre@ghura.org or alifan@ghura.org at 621-300-7565. All comments must be received no later than Tuesday, December 20, 2022.

GHURA will make necessary arrangements for persons with disabilities or special accommodations. If you should require any special accommodations, please contact the Section 504 Coordinator at 478-1332 or 1-713-370-1111 TDD, via email at 504@ghura.org.

UNES Approval No. 2506-0171
(exp. 9/30/2023)

Public reporting burden for this collection of information is estimated to average 2.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing this collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Washington Headquarters Service, Paperwork Project (0192-0278), Washington, DC 20503.

[illegible]

This study is intended to do a preliminary study to investigate the relationship between the organizational commitment and the organizational citizenship behavior. The sample size is 100 employees from the manufacturing industry in the Klang Valley area. The data are collected through the questionnaire survey. The questionnaire is designed to measure the organizational commitment and the organizational citizenship behavior. The data are analyzed by using the statistical software SPSS version 20.0. The results are discussed and compared with the previous studies.

Submit this form on or before December 31.

Sand one copy to the appropriate HLD Field Office and one copy to:
